

JavaFx registration system

by Tursunbekova Eliza
group Com20

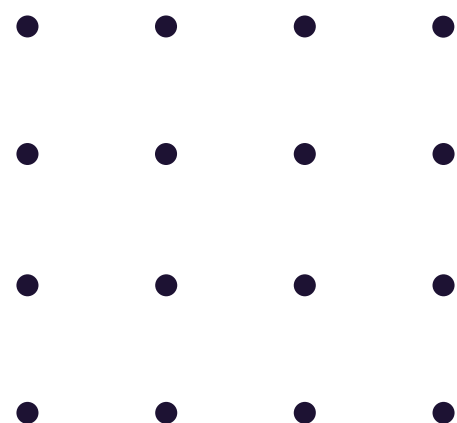

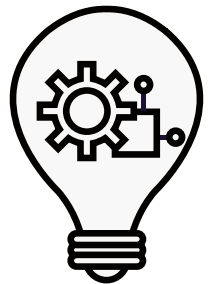

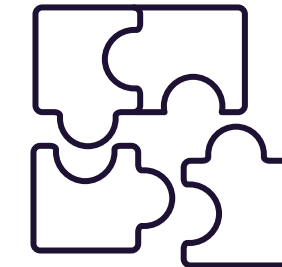

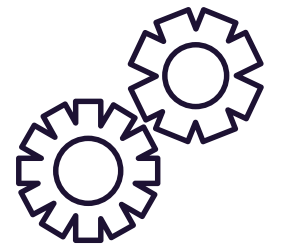

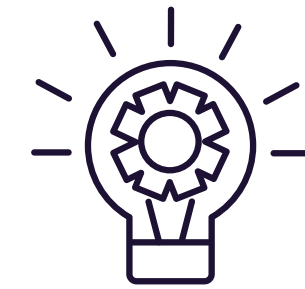

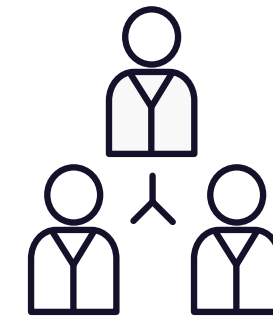

lecturer Isaev Ruslan

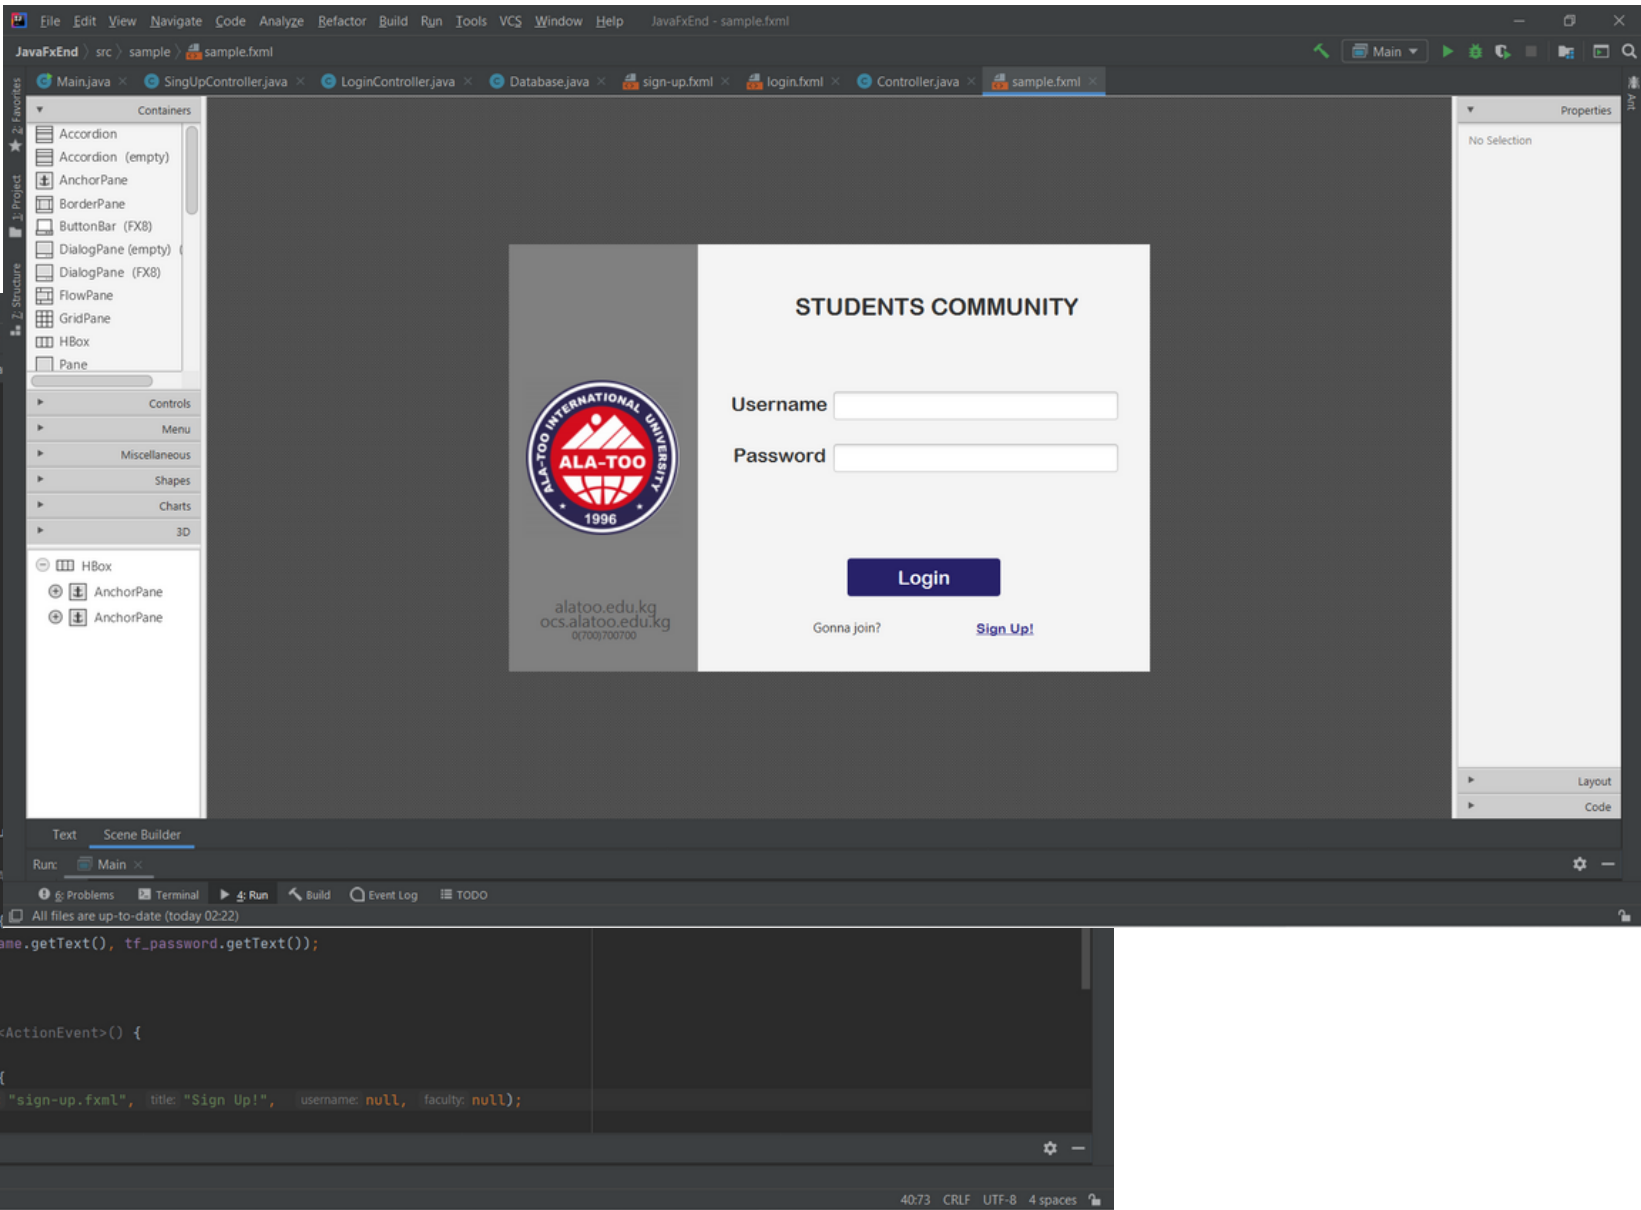

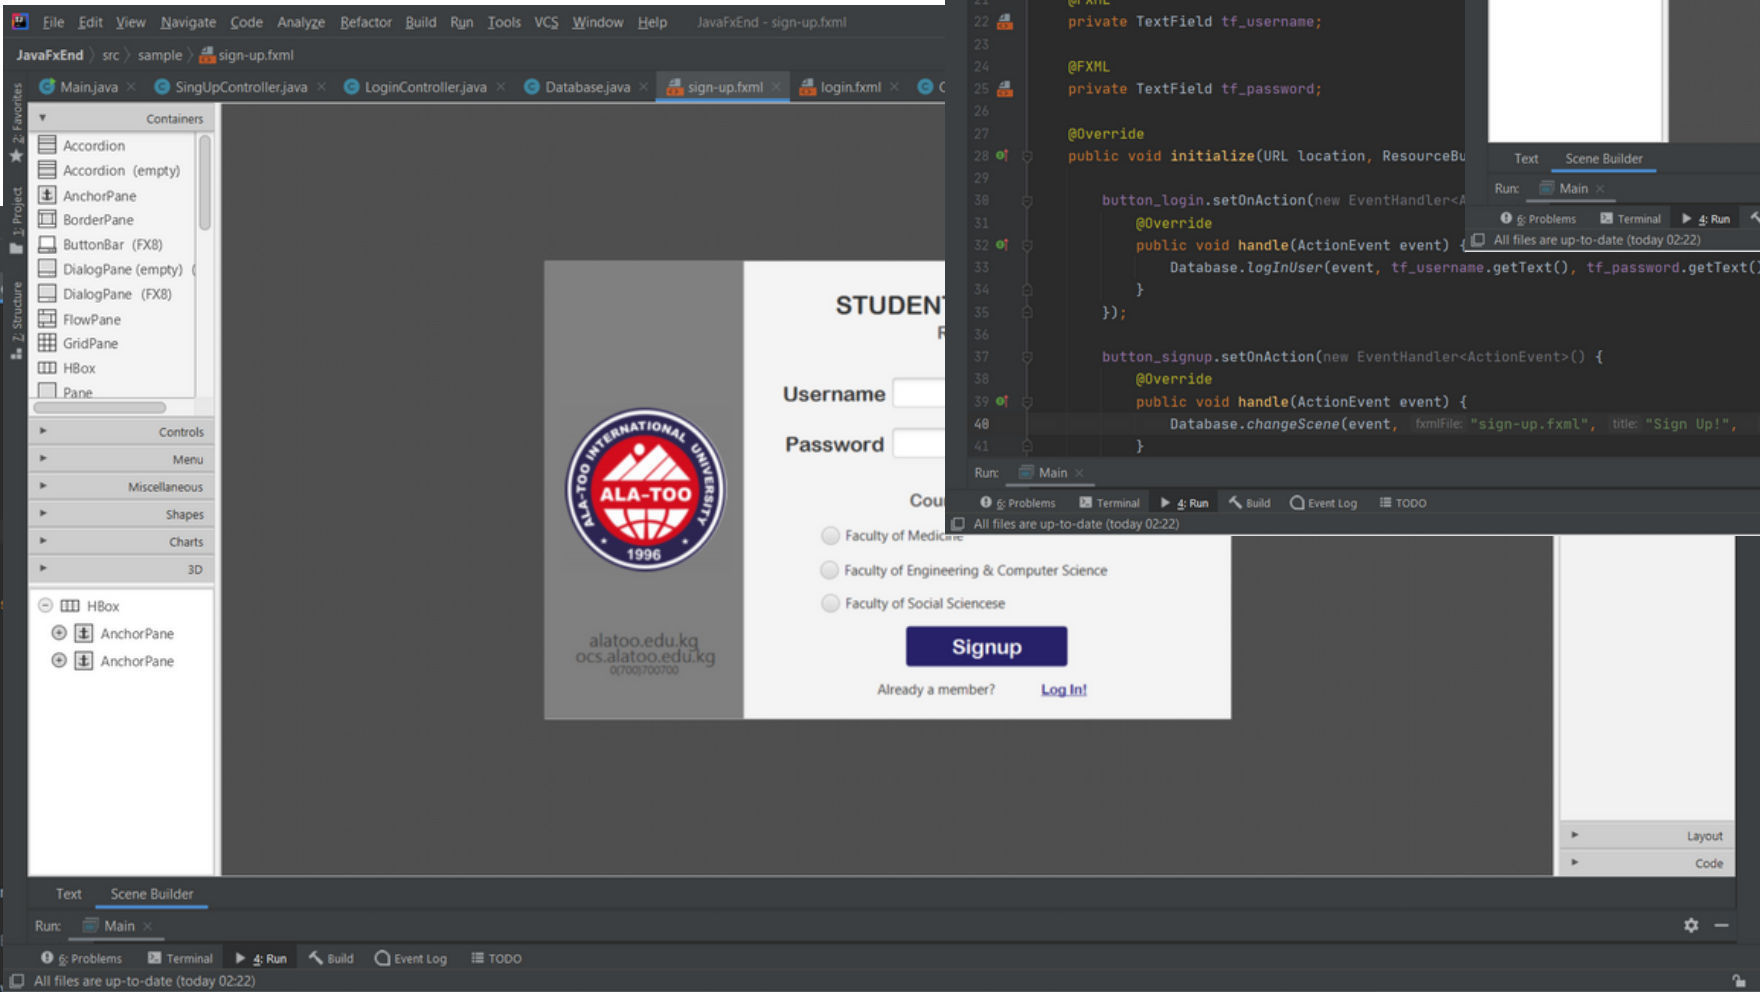

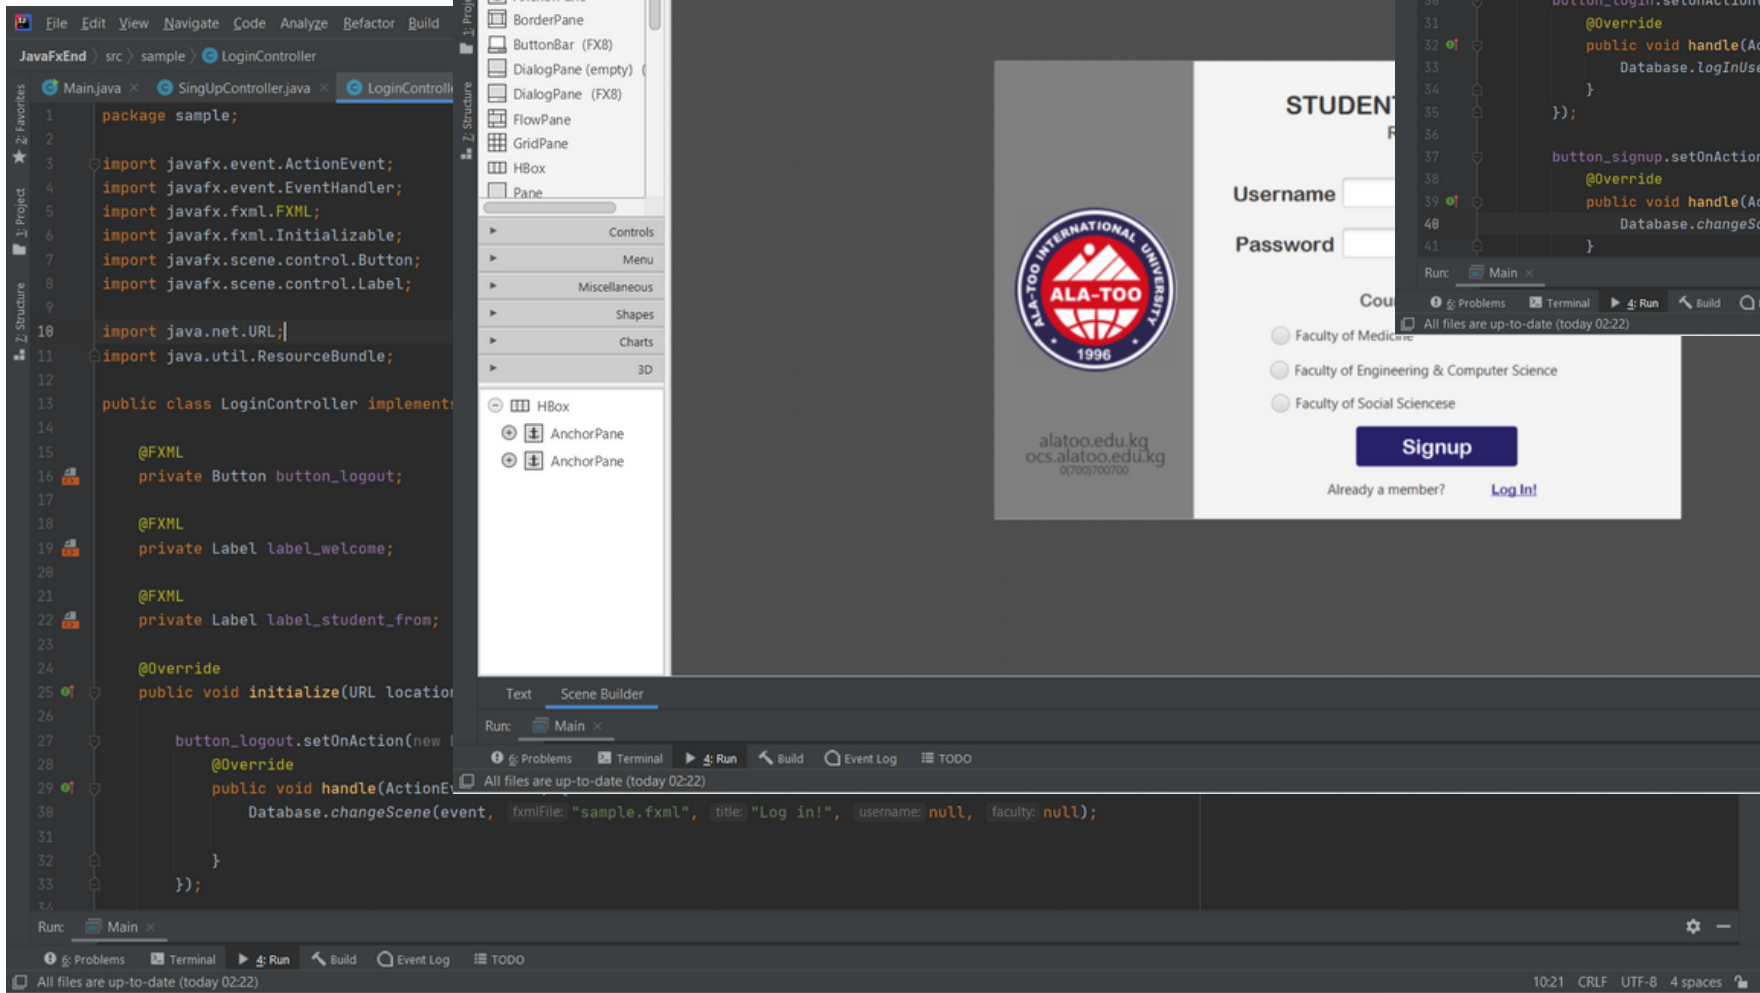

Steps of creating:

1. Project selection.
2. Beginning of coding (creating database schema, table with needed columns, connecting IDE with MySQL, creating visual design in SceneBuilder and then coding)
3. Finishing the project.
4. Test of the app.
5. Github repository creating.
6. Adding README.md (discription, photos)
7. Presentation
8. Youtube video creating

- The app - **"AIU Students Community"**
- Programming language **Java**
- IDE - **IntelliJ IDEA**
- Visual layout tool - **SceneBuilder**
- Database Management System - **MySQL**

The background of the image is a light-colored, marbled pattern, resembling natural stone or marble. It features soft, swirling veins of light blue and grey against a pale cream or off-white base. The pattern is organic and non-repeating, creating a subtle, elegant texture.

Thanks!
